# President's Message

Dear Colleagues

Two years ago in Queenstown the theme of the Conference was "The Financial Markets Bungee – Ensuring we spring back after taking the plunge".

Last year at the Gold Coast the theme was "Crumble in the Jungle – lessons from the crunch". We return to the beautiful alpine town of Queenstown in New Zealand for your Conference this year and the theme is "Après - GFC the regulatory and responsibility hangover".

The Planning Committee has worked extremely hard this year putting together what I believe to be a truly exceptional Programme.

We are delighted to have Lord Hoffman speaking this year. We are equally delighted that the Judiciary from both New Zealand and Australia continues its strong support for our Conferences. Justice Dyson Heydon from the High Court of Australia, the President of the New Zealand Court of Appeal, Sir William Young, Justice Julie Ward from the Supreme Court of NSW and Dr RP Austin, recently retired from that Court, are also speaking this year.

We have a packed Programme. In keeping with our regulatory and responsibility theme, we have Bob Pickel from ISDA in New York and Jane Diplock, Chair of the New Zealand Securities Commission and Prof. John Armour, Lovells Professor of law & Finance, Oxford, speaking on regulation after the GFC, two PPSA topics, our first ever session on Islamic financing and many other sessions including cross border insolvency, secondary debt trading, syndicated loan arrangements, AML and anti-terrorism laws and the new consumer credit laws.

This year's Conference will commence with a welcome reception [including a substantial buffet selection] on Saturday evening at Skyline Queenstown which is at the top of the chair lift overlooking Queenstown and Lake Wakatipu.

I encourage you all to support the BFSLA and our Conference by contacting Jenny and booking your place at what is going to be a memorable Conference.

Finally, I would like to say a special thanks to our sponsor firms whose names appear on the back cover of the brochure. Your support allows the BFSLA to keep the conference fees low and ensures that each year the Association is able to fund the Research and Scholarship prizes.

I look forward to seeing you all in Queenstown.

John Evans  
President BFSLA

**Concurrent Session 1A**

**PPSA Topic 1- Panel Session**

This session addresses some of the conceptual and other general issues that arise out of the new Australian Personal Property Securities Act 2009, such as:

- Does the PPSA create some new type of statutory fixed charge, or does it simply change the rules that apply to relationships that fall within the descriptive definition of "security interest"?
- How will courts handle the interaction between security interests and other types of interests in personal property (eg under a declaration of trust)?
- How does an all-assets security interest under the PPSA stack up against a fixed and floating charge under current law?
- The use of subordination or priority agreements.

*Chair: Steve Edwards, Director, CreditWise, Sydney*

*Panellists: Craig Wappett, Partner, Piper Alderman, Brisbane*

*Representative from the Attorney General's Office, Canberra*

*Dr Bill Gough, Legal Consultant, Sydney*

*Murray Tingey, Partner, Bell Gully, Auckland*

11.00am

**Concurrent Session 1B**

**Unravelling Guarantor groups**

Lending to a group of companies can often involve an intricate web of loans, guarantees and securities and with some loans being subordinated to others. In this session the speakers untangle this web and look at the recent High Court decision in Bofinger's case dealing with rights of subrogation, contribution and indemnity between guarantors and debt subordination pre and post insolvency. The effectiveness of no competition clauses and the difference between turnover subordination and contractual subordination will be examined as well as the interaction between an ASIC Class Order cross guarantee and the other guarantee, security and subordination arrangements entered into by the group companies. Pari passu clauses and payment sharing mechanisms pre and post insolvency will be considered together with the duties owed by a first ranking mortgagee to a second ranking mortgagee on discharge of the first ranking security.

A case study will be used by the speakers to provide the factual context for their examination of these issues.

*Chair: Alan Maclean, Partner, HWL Ebsworth, Melbourne*

*Speakers: Peter Collinson SC, VicBar, Melbourne*

*Matt Kersey, Partner, Russell McVeagh, Auckland*

**Cross Border Insolvency**

Insolvency practitioners are increasingly coordinating their efforts across borders, court to court communications are occurring internationally, attempts are being made to enforce insolvency judgments in foreign jurisdictions, and foreign insolvency laws are affecting the local enforcement of commercial agreements where a counterparty from that foreign jurisdiction becomes bankrupt. Judges are responding to these challenges by applying the UNCITRAL model law and common law principles. The speakers will examine how the courts are developing practices and legal principles in order to respond to the challenging international aspects of insolvencies, and will discuss the ability of the UNCITRAL model law and the common law to deliver cross border harmony and cooperation.

**Regulation after the GFC**

The world is coming to terms with the aftermath of the largest financial crisis in living memory. Many are asking how the GFC happened and more importantly, how its recurrence can be prevented. Inevitably calls for more market regulation have been heard. While many would argue that it is not more but better regulation that is required we are nonetheless entering into a new global regulatory landscape. In this session Bob Pickel, Executive Vice Chairman of the International Swaps and Derivatives Association and Jane Diplock Chairman of the New Zealand Securities Commission and Chairman of the Executive Committee of IOSCO examine recent and proposed regulatory changes and how this will affect future transactions and products with a particular focus on markets and financial instruments.
